

### **REMARKS**

Claims 1-12 are now pending. An Examiner interview was conducted on August 24, 2005, where the Hunter reference was discussed in detail and compared to the present invention as claimed. No agreement was reached. As suggested by the Examiner, claims 1 and 7 are amended to claim that data is created in real time for the mobile device. We extend our appreciation for the opportunity to speak with the Examiner regarding the Office Action and subject claims.

### **Claim Rejections Under 35 U.S.C. §102**

Claims 1-12 are rejected under 37 U.S.C. §102(e) as being anticipated by Hunter (U.S. Patent Publication U.S. Patent Publication US2001/0047426).

Hunter does not teach or suggest the invention as claimed in amended claims 1 and 7. For example, Hunter does not teach creating data for the mobile device in real time. Instead, as pointed out by the Applicant during the Examiner Interview, Hunter discloses a data routing device.

For the foregoing reasons, Applicants respectfully request that the rejection of the independent claims 1 and 7 be withdrawn. Because the dependent claims related thereto include further limitations in addition to those recited in their corresponding independent claim, Applicants believe that all depending claims are also allowable over the cited references of record. Reconsideration of this rejection on view of the pending claims is respectfully requested.

**CONCLUSION**

In light of the remarks set forth above, Applicants believe that the present application is in form for allowance, and such action is respectfully requested. Should the Examiner have any question, the Examiner is encouraged to telephone the undersigned.

The Commissioner is authorized to charge any required fees due in connection with this submission, including petition and extension of time fees, and to credit any overpayment, to Deposit Account No. 23-2415 (Docket No. 24286-711).

Respectfully submitted,
